FULL SPECTRUM LINE OF SPLITTERS

The Most Innovative Splitter Designs Ever!

Wall Plate Splitters

The first and only multi-port splitter designed and patented exclusively for wall plate installations. These splitters have a single output port on one side that extends through a standard wall plate offering the capability to easily install a 2, 3, or 4-port splitter into a single gang wall box.

Angle Port Splitters

The super-slim body and uniquely designed angled ports make this splitter easy to install into most any termination closure. Gale Corporation's patented Angle Port Splitters have the most accessible ports of any splitter available without sacrificing performance.

Directional Couplers

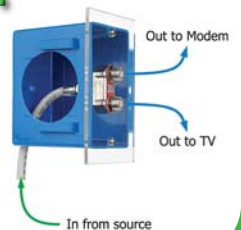

The most compact high-performance directional couplers available.

Cable/Modem Splitter

A unique dual-port wall plate splitter delivers maximum signal to both a TV and cable modem with minimal signal interference.

In-Line Splitter

Super small case design and 1GHz high performance specifications make the IL2 the perfect splitter to use when space and cable length are limited.
